We are thrilled to announce the recipients of our Fall 2019 Fellowships—a group of 27 artists and scholars representing 9 countries and 11 disciplines. Fellows from Uruguay to Japan will develop new projects in Bogliasco this Fall, including a musical composition inspired by climate change in the stark winter environment of the Arctic, a play about the 1872 trial of Susan B. Anthony, and a documentary about the great 20th century photographer Peter Hujar, who chronicled the vanished world of the '70s and '80s East

**Support our Study Center and Fellows with a Fiscal Year-End Gift**

As a nonprofit organization, the Bogliasco Foundation relies largely on gifts from individuals who are dedicated to the vitality of global arts and letters. Thanks to your generous donations, we can now count over 1,000 artists and scholars from 61 countries as our alumni. As we approach the end of our fiscal year on June 30th, please consider making a gift to support future Fellows from around the globe and the innovative projects they will pursue.
"The everyday access to such a specific and intense landscape, which enveloped and framed the residency, created a kind of heightened sensory experience of the place, and had a concrete effect on the work and thought that was produced during my time there."
- Daniele Genadry, Spring 2019 Fellow in Visual Arts, Lebanon/USA

"The direct contact with other scholars from different disciplinary fields was extremely enriching for me, my project and its possibilities of expanding into other fields of study."
- Isolina Díaz-Ramos, Spring 2019 Fellow in Architecture, Spain
